PROJECTS

Bus Pass Management System

Developed a Bus Pass Management System to automate the process of bus pass application, renewal, and management. The system enables users to register, apply for passes, track application status, and make online payments. It helps reduce manual paperwork, improves record management, and enhances efficiency for both users and administrator.

Online Book Store Management System | SQL, PostgreSQL

- Performed advanced SQL queries to analyze & extract meaningful insights from online book store data.
- Analyzed customer activity and sales performance for reporting purposes.

Responsive Portfolio & Resume Website

- Developed a responsive one-page portfolio website using HTML5 and CSS3 to showcase profile, skills and projects.
- Created reusable sections with a clean UI, suitable as both an online resume and portfolio.

Amazon Sales Analytics Dashboard

- Developed an interactive Power BI dashboard to visualize sales trends, top-selling products and regional performance.
- Created KPIs and business insights to support data-driven decision-making.
